Por the Sentine! Letter from Wauwatosa

Wauwatosa, June 18, 1855. Messas Energies :- Thinking it would be in setting to your many readers to know some thing of the fown and village of Wanwatoss, its prosperity and growth. I will give you such parsulare es have come under my notice.

In this town I have seen some of the finest further advanced in ornamental appearance and cultivation or soil. As to richness of soil lay of iend, and growth of timber, it cannot be excelled in any country. There are many Milwaukeans who have long lived in the city who know noth-

fine, and perhaps never gave a better promise of a plentful harvest. But the dry weather during o or demagn to the Busies aspplies in the the mouth of May changed the sepect of everythe mouth of May changed the sepect of every indeed gave the farmer discouragement. At one time, upon the church steps on the Sabbath morning, at the Hotel of the village, barn-raisings, and in fact at every gathering of the farmers, the weather would be the principal topic of convereation; and most disparagingly was it commented upon. And in the downcast visage of the farmer could we easily see its effect. Up to the sighth of this month it also continued dry, and the weather prophet would tell of a dry summer we have been favored with Heaven's choicest blessing, and never in this vicinity has rain been

The village of Wanwatosa is growing apace There are some fine residences in process of erection at this time, among which is that of Be jeman Hart, Esq., (who by the way is one of the plosests of the State,) Mr. Harwood's and Mr. Riddle's. Mr. Hart's is a large square built house. built of era-m-colored brick, and would be an oreament to your large and flourishing city ; it is situated on a bill a little west of the village. Mr Harwood is building a very nest and showy cottage, which from its elevation presents itself conspicuoselp. Mr. Riddle has just completed his house ; it is built in the Italian style of architecture, square with flat roof, and from its loca tion presents a very fine appearance,

I cannot but wonder that these gentlemen did not build of the Gothic Cottage order of Architecture, which for beauty and adaptation for cour try or villege residences cannot be excelled. I have noticed on the hill south of the church, a Gothic Cottage or rather "Grecian," which when completed will excel anything in the village for location and beauty of architecture. In the villand opposed that upon the Connell, and assumed to is Congregationalist, Rev. An organ would greatly add to the singing, which would well bear improve-

CITY MATTERS. POLICE COURT .- June 20th.

BEFORE CLINTON WALKORYE, MSQ., POLICE PRETICE The boy Denahue was bro't down from jail, and being examined, was committed for trial. He admitted entering the store and stealing the articles found on him. He had lost the filthy rags that covered him when arrested, and his appearance in court, was in a clean shirt and trowsers supplied by the jailor. This is perhaps worthy

of note, because if "cleanliness is Godliness," this is the first time that this boy has had an idea of a Divinity. In the abscans of a House of Refuce, It is a fortunate thing that the offence committed by him, is a felony, punishable by imprisonment in the State Prison—at Waopun he will, under the care of the State Prison Comnissioner, be taught to read, and other. ally instructed. In the County Jail of Milwaukee, he would simply have been caged, an obect on exhibition for the benefit of the county

members of the Board of Supervisors. Gindring Suapa Taum.—A warrant was insued against Charles Mahl, a boy about ten years of age, charging him with girdling a shade tree standing for shade and ornament on 4th Street in the Second Ward, and belonging to Walter Burke. Wauwatosa, June 18, 1855. Massa Epirous :- Thinking it would be in: iculare se have come under my notice.

In this town I have seen some of the finest further advanced in ornamental appearance and aultivation of soil. As to richness of soil lay of and, and growth of timber, it cannot be excelled in say country. There are many Milwaukeans who have long lived in the city who know nothing comparatively of their neighboring town. The wheat in this vicioity in April looked

fine, and perhaps never gave a better promise of a plentful harvest. But the dry weather during the month of May changed the aspect of everything yery zough, and put everything back and indeed gave the farmer discouragement. At one time, upon the church steps on the Sabbath morning, at the Hotel of the village, barn-raisings, and in fact at avery gathering of the farmers, the weather would be the principal topic of converantion ; and most disparagingly was it commented upon. The village of Wauwatora is growing space. There are some fine residences in process of erec-tion at this time, among which is that of Bensman Hart, Esq., (who by the way is one of the pioneers of the State.) Mr. Harwood's and Mr. Riddle's. Mr. Hert's is a large square built house built of cream-colored brick, and would be an organiest to your large and flourishing city ; it is tuated on a hill a little west of the village. Mr. Harwood is building a very next and showy cottage, which from its elevation presents itself conspicuouslp. Mr. Riddle has just completed his house ; it is built in the Italian style of architecture, square with flat roof, and from its loca-

tion presents a very fine appearance, I cannot but wonder that these gentlemen did not build of the Gothic Cottage order of Archiecture. which for beauty and adaptation for country or village residences cannot be excelled. I have noticed on the hill south of the church, a Gothic Cottage or rather "Grecian," which when completed will excel anything in the village for location and beauty of exchilecture. In the village there are two large church schiffces. The first is Congregationalist, Rev.
